

# MEMORANDUM

June 25th, 2020

TO: Lincoln Municipal Golf Committee  
FR: Wade Foreman Business Coordinator & Casey Crittenden, Maintenance Coordinator  
Cc: Parks and Recreation Advisory Board  
RE: June Golf Report

## **Golf Update:**

May weather was nice for golf and we saw a good number of rounds played for the month coming in 7% above budget for rounds for the month. Halfway through June it has been very warm, but golf rounds have held steady for the most part but will have to see what the last half of June brings with rain or winds that could cause rounds to drop. Greens staff have been working on irrigation repairs and hand watering greens and new trees along with keeping up on the normal tasks. Storm damage at Mahoney on June 18<sup>th</sup> caused course to be closed for play to clean up tree debris. Golf cart dividers have been installed on the golf carts to help with Covid-19. Casey and the maintenance teams have done a nice job of getting the dividers in place quickly. High winds have caused an issue on certain days with Velcro coming loose, maintenance staff is applying some strong glue to hopefully make it a stronger hold with Velcro but high winds may still be an issue at times. With health directives changing again on June 22<sup>nd</sup> it will allow more inside seating at the clubhouses and golf leagues for the most part are all back playing each week. Tournaments are also kicking off in late June and some that were cancelled due to Covid in spring have rescheduled for later in the year.

## **Capital Improvements Update:**

Holmes Golf will be replacing a failed 6" backflow preventer at the Pump House near Hole #6. Estimate to repair is \$6,906.

## **Player Development Programs:**

Player development programs for Adult and Youth kicked off on June 1<sup>st</sup>. Golf camps, clinics, leagues all have good numbers of registrations for summer months. Good registrations will help with increasing the lessons/classes revenue going forward for the rest of the fiscal year.
