

MEMORANDUM

June 24th, 2021

TO: Lincoln Municipal Golf Committee

FR: Wade Foreman Business Coordinator & Casey Crittenden, Maintenance Coordinator

Cc: Parks and Recreation Advisory Board

RE: June Golf Report

Golf Update:

Golf rounds for May were above the target number of rounds by 28.7%. Overall golf rounds for the month of May was 30,155. June weather has been hot with temperatures in mid to high 90's for the first ½ of the month. The month of June has been challenging for the maintenance crews. We went from cool weather to hot weather in about a day! Greens finally came around and the maintenance staffs are all back up to full speed with those tasks such as mowing, topdressing, vertical mowing and rolling. Except for the 1.5 inches of rain on June 11th rainfall this month is quite a bit lower than normal. I would expect to see higher than normal watering bills for this period. The transition from the older version of irrigation controllers at Highlands to the new controllers has been a great success. Matt and his staff constantly struggled with communication between the central irrigation computer and the older irrigation controllers. Often that meant staying late at night with the old controllers to insure everything watered as it should. Now with that burden is off Matt's shoulders and he can focus on more other tasks. (And maybe get some sleep). The superintendents have still been struggling to fill unclassified labor position. I am very proud of this group as they manage through this tough time. Hopefully more workers will come available later this month. Poster boards have been placed at each clubhouse showing the Pioneers Irrigation timeline + fairway #5 rerouting along with the new irrigation design mapping.

Capital Improvements Update:

New irrigation satellite controllers have been installed by Landscapes Unlimited at Highlands golf course. Cost was \$17,865
