Lincoln City Golf Academy

In the Lincoln City Golf Academy, the philosophy of learning golf is a simple one built upon the concept of a total golf game experience (i.e., full swing, short game, on-course instruction and proper club fitting). This experience is designed to improve every facet of the student's game in a safe and nurturing environment. The LCG Academy is the perfect place for a new golfer to start learning the game and for the experienced golfer to take that next big step in their golf career.

Joe Canny is a PGA Certified Professional with over 10 years of player development experience helping coach all levels of golfers at the national, regional and local level. Joe has a tremendous passion and dedication to help you have fun learning and playing the game of golf.
